

Quick Start

Begin your Dynatrace journey towards flawless and secure software by building a solid foundation based on our best practices and your use cases

What you get

- Achieve effective observability faster
- Targeted deployment to enable rapid adoption
- Hands-on workshops to apply best practices

How we deliver

Build a solid foundation to enable value realization through

- Proven best practice enablement and application
- Building repeatable processes for further deployment
- Prioritizing use cases to enable your teams

Completing a series of workshops that will

- Design the right solution for your environment
- Define optimal deployment and on-boarding strategies
- Apply best practices to ensure effective configuration
- Provide focus on your most important use cases through tailored configuration workshops
- Validation of the initial setup with next steps and recommendations

Dynatrace Expertise

Architect – Designing a future proof Dynatrace Platform utilizing expertise to ensure an optimal solution

Lead Consultant – Enabling the ability to realize the value of Dynatrace through collaborative best practice design and application

Logistics

A remote engagement delivered over a series of full and half days

Prerequisites

- Availability of key personnel to participate and action activities
- Active Dynatrace Licenses

About Dynatrace

Dynatrace exists to make the world's software work perfectly. Our unified software intelligence platform combines broad and deep observability and continuous runtime application security with the most advanced AIOps to provide answers and intelligent automation from data at enormous scale. This enables innovators to modernize and automate cloud operations, deliver software faster and more securely, and ensure flawless digital experiences. That's why the world's largest organizations trust Dynatrace® to accelerate digital transformation.
