

# Conversion Planning

Planning and architecting your successful move from traditional monitoring to Dynatrace

## Description

- Duration: 1 week
- Location: Onsite or Remote

A Dynatrace expert works with your team to assess your current monitoring strategy and use cases. The Architect utilizes Dynatrace best practices to design a solution to fit your needs, from assessing your infrastructure for growth to developing a OneAgent deployment plan to help you move beyond traditional monitoring to Dynatrace. Through interactive discussions and whiteboarding sessions, you will learn Dynatrace best practices that drive successful adoption across the application lifecycle.

## Included Services

Dynatrace Services will help you plan for the future growth of the platform throughout your organization, including:

- Architectural design and infrastructure validation
- Initial implementation and configuration
- Dynatrace fundamental training
- OneAgent deployment workshop
- Develop OneAgent deployment strategy
- Dynatrace AI workflow best practices workshop
