Enterprise Solution Architect

Dynatrace Enterprise Solution Architects provide the strategic leadership and solution to deploy Dynatrace and help ensure sustainable success in today's complex enterprise environments

Description

- Location: Remote

- Duration: 12 months, part-time

The Enterprise Solution Architect offering provides customers with the experience, leadership and strategic guidance to ensure success for the most complex enterprise deployments.

The Enterprise Cloud brings challenges that require a combination of in-depth product knowledge, custom architecture, and cloud & container technical knowledge. Our team of senior Solutions Architects possess the skills necessary to establish a foundation to drive sustainable, large scale adoption of Dynatrace. With deep industry knowledge, and years of experience, the Solution Architect will ensure the success of your deployment.

Deliverables

The Enterprise Solution Architect will evaluate your environment and educate you on Dynatrace best practices, as well as provide:

- Dynatrace architecture document

- Enterprise Cloud strategy documentation

- Dynatrace Enterprise Application Onboarding Workbook

Your Dynatrace experts

Enterprise Solution Architect

With experience implementing Dynatrace solutions across multiple customer environments the Enterprise Solution Architect will assist with and provide guidance on architecture, deployment best practices, and general product enablement.

Dynatrace Services Team

The global reach of Dynatrace Services means that you not only have access to your consultant, but hundreds of additional resources worldwide to help drive value from your deployment. Powered by Collective Intelligence; by tapping into this network, you can find answers quicker and drive more value from Dynatrace.

dynatrace

Quarterly Business Reviews (QBR)

" When you start rolling out monitoring to tens of thousands of hosts throughout a major enterprise's digital ecosystem you are no longer just software with a couple dashboards in a NOC. The entire digital health of the enterprise becomes reliant on the data and AI of Dynatrace. Therefore, the integrity of the data and processes as well as the availability of Dynatrace are elevated to Tier One expectations."

AMERICAN EXPRESS

Planned activities

- Build the foundation for a sustainable, enterprise scale deployment and adoption of Dynatrace
- Provide Dynatrace Architectural leadership to successfully deliver on complex automation, scalability, High Availability, and Disaster Recovery requirements
- Extend Dynatrace throughout your IT ecosystem and across business-critical use cases.

Architectural workshop — Deployment automation — Strategic solutioning — Next steps

Kickoff — QBR — QBR — QBR — QBR
