

# Dynatrace Performance Benchmarks

Dynatrace Performance Benchmarks rank the performance of hundreds of global companies across many industries. You get all the information you need to set goals and standards for web performance and keep raising the bar.

## Description

Dynatrace Performance Benchmarks help you understand how your site's performance stacks up against others in your chosen industry and country. In weekly emailed reports, we provide you with key performance and availability data that will help you make decisions on where to focus and improve. The Benchmarks team provides reports on both homepage and multistep user journey "clickpath" transactions.

## Deliverables

To ensure you stay on top of performance issues, the Benchmarks product provides:

- Weekly email reports
- Two weeks of detailed performance and availability data
- Industry snapshots
- Competitor rankings on Visually Complete

### Understand

#### how you compare

Identify the top performers in your industry to see how your sites compare.

### Focus on

#### what's important

Understand what is possible and use the right metrics to set your own standards.

### Identify

#### performance trends

Track changes over time and get out in front of industry trends.

### Be the best

Optimize your site's performance by understanding the best sites in your industry.

## Offering components

### Industry Snapshot

Providing a quick view into industry performance and trends allows you to compare yourself against your competition.

### Performance Rankings

Providing detailed data on the performance of your site with a focus on Visually Complete, a Dynatrace standard when it comes to understanding user experience.

### Availability Data

Providing insight into the availability of your site so that you can better understand how often your users experience an issue.
