Dynatrace Brings Continuous Digital Performance Management to SAP Hybris

Run Simple

Boost digital experiences with Dynatrace for SAP Hybris

Digital experiences are key revenue drivers, especially in e-commerce. To keep up with the demands of today's business, Dynatrace works with SAP Hybris to enhance digital experiences, accelerate innovation, and modernize operations.

Since 2011, Dynatrace and SAP Hybris have partnered to build out-of-the-box performance-monitoring capabilities. They are based on best practices developed by experts with years of experience in SAP Hybris environments. Dynatrace is the only certified performance-management software for the SAP Hybris Commerce solution, providing integrated application monitoring and performance analysis.

“Dynatrace provides us with end-to-end profiling of a customer journey, which allows us to easily isolate and repair problem areas within that journey. This guarantees a better end-user experience and for us a more satisfied cloud customer.”

Andre Boutet, Senior Director, Global Head Infrastructure and Operations, SAP Hybris

ENHANCE CUSTOMER EXPERIENCE

Dynatrace helps you see applications the way your customers do, giving you a competitive edge in today's market. The challenges of omnichannel customer experience are numerous, and Dynatrace engages a user-centric approach to monitor, analyze, and optimize customer experience with an enhanced 360-degree view of every user journey.

KEY FEATURES

Provides total visibility of customer's digital journey in real time

Reduces IT complexity with artificial intelligence capabilities

Eliminates alert overload with a single alert to the root cause of a performance issue

Covers the full stack with a single unified solution – including log analytics and network monitoring – eliminating the need for additional monitoring tools

Allows visibility into business transactions across all components, including mainframe and database

Produces faster releases and reliable testing in production and pre-production environments without impacting customer experience

Automates the entire deployment process in minutes for simple installation, configuration, and maintenance

Captures timing and code-level data for every transaction across every tier, without gaps or blind spots

ABOUT DYNATRACE

Dynatrace has redefined how you monitor today's digital ecosystems. AI-powered, full stack and completely automated, it's the only solution that provides answers, not just data, based on deep insight into every user, every transaction, across every application. The world's leading brands, including 72 of the Fortune 100, trust Dynatrace to optimize customer experiences, innovate faster and modernize IT operations with absolute confidence.
