

Simply smarter, all-in-one platform powered by AI

- Application performance management
- Cloud infrastructure monitoring
- AIOps
- Digital experience management
- Digital Business Analytics

What makes Dynatrace unique

Fully automated

With zero-touch configuration, continuous discovery and mapping, you'll have more time to do something useful.

Full stack

We understand all the relationships and interdependencies, top to bottom, so you don't have to.

AI-powered

Powerful AI, providing real-time precise answers. Minimize troubleshooting, and spend more time knowing.

Broadest technology support

Engineered for cloud native and hybrid environments, Dynatrace covers your complete ecosystem automatically—from microservices to traditional applications.

Software Intelligence for ServiceNow

All-in-one, AI-powered monitoring for better business outcomes

Dynatrace, with ServiceNow integration capabilities, is the perfect way to detect and react on IT service-related issues within your organization through automation and intelligence.

- **Complete visibility:** ServiceNow and Dynatrace provide a complete picture of the enterprise
- **Actionable insights:** Complementary AI technologies to identify issues faster and keep CMDB current
- **Rapid resolution:** Once a problem is identified, remediate issues quickly

“**Dynatrace adds tremendous value** to find and analyze deep application code level problems. This solution helps us eliminate service outages and disruption to end users and improves our SLAs to customers.”

— Jeff Palmiero, Manager of Application Performance Monitoring

RAYMOND JAMES®

Out of the box, Dynatrace provides **fully automated capabilities:**

- Automatic tracing of services, applications, topology and dependencies, with code level insights for an end-to-end picture of your IT environment
- Deterministic AI provides full real time visibility into application and infrastructure problem identification with precise root cause analysis and business impact
- Comprehensive real user insights drive proactive and measurable experience improvements before business gets impacted
