

#Perform2018

“Do something you haven’t done
before. Get out of your comfort
zone.”

Micro Adventures

“Can I be honest? It was hard using AppMon. But we’ve moved to Dynatrace, and it’s been easy. We’ve seen a huge increase in adoption”

Micro Adventures

“We are shifting to AWS which utilizes Lambda.
We are going to look into shifting to Dynatrace”

Micro Adventures

Dressing up as Aussie Won Kanobe....

Dynatrace “Monitoring Redefined”

Dynatrace micro adventure to macro
adventure

But you have to go on this adventure...

Let's put code complexity into context

4.5M - Photoshop 6

5M - Mars Curiosity

6M - Google Chrome

14M - Boeing 787

The Ford F150

150M Lines of Code

IoT introduces a whole new world of complexity

Micro Adventures start with you taking a step
